B2401 GROUP

The Bullseye® B2401 Group

Our wonderful new B2401 Series Safe Deposit Lock is a direct replacement for the Corbin #2401, S&G #261, S&G #263, S&G#4210, and the MGM ASP series of locks.

The B2401 Group Locks have a brass finish and comes in Right or Left Hand and are available with 8 Stock Prep Keys. Bullseye® can easily match any existing prep key to work in our B2401 locks. The B2401 requires insertion and rotation of the Prep Guard key prior to the insertion and rotation of the renter or customer's key in order to retract locking bolt. It is intended primarily for service use in Canada's major financial institutions. A single key operated version is available upon request.
